

## International Green Mobility Expo (GMX)

International Green Mobility Expo (GMX), is a new initiative of the Confederation of Indian Industry (CII) against the backdrop of Government of India's initiatives towards making a sustainable Green Mobility Solution for India and to encourage the Indian Electric and Hybrid Vehicles Industry to adopt new innovations and technologies to achieve the target of making a pollution free mobility for India.

**The first edition of GMX was held in February, 2015** with a Panel Discussion on the subject. The exhibition had display of latest products and technologies from the following major companies, amongst others:

1. Renault India
2. Toyota
3. Maruti Suzuki India
4. Tata Motors
5. Kinetic Engineering
6. Hero Electric

The event and panel discussion had helped the Indian Green Mobility sector to highlight the government of India initiatives in this direction and the strength of the industry in Green Mobility initiatives in India.

**The second edition of GMX held in February, 2017** witnessed large participation of companies from India and overseas, including Pavilions from China and Korea. Major companies displayed latest technologies and products include:

1. BMW
2. Maruti Suzuki India
3. Mahindra & Mahindra
4. Bajaj Auto
5. JBM
6. Hero Electric
7. Bosch

A conference was also organized during GMX 2017 and was attended by over 200 delegates from India and overseas.

GMX is supported by Automotive Components Manufacturers' Association of India (ACMA), Society of Indian Automobile Manufacturers (SIAM), Society of Manufacturers of Electric Vehicles (SMEV), PCRA, and relevant Ministries of Government of India, since its inception.
